How to Painlessly Get Rid of Unwanted Hair!

Save Time & Money... Here's The Quickest & Easiest Pain-Free Way To Permanently Reduced Unwanted Hair... 100% Guaranteed!

Let's face it—body hair is a turn-off. And that's why you're reading this report. You don't want to put up with it any longer. The good news is: **You don't have to!** And you're not alone. Most of us have unwanted hair we'd like to remove. Whether it's your bikini line, facial hair, legs, back or under your arms... it doesn't matter. By the time you're finished reading this report, you'll have a clear idea on how to get rid of your unwanted hair for good! Now that's going to be a great feeling isn't it? I mean, how sexy is it to wrap your arms around a hairy back? Or what about getting chest hairs in your nose or mouth when you're trying to kiss his chest? And who wants to be seen on the beach with a girl who has black curlies poking out of her swim suit? Or worse, a shaving rash at the top of her thighs?

For guys it's hard to feel cool or attractive if you know that lurking under your shirt is 'ape man'. And don't you cringe when you catch those whispered comments on the beach about how you look?

Even for blokes who have partners, how happy are they with the excess body hair? The endless black curlies on the bed sheets, or all the time you spend hogging the bathroom while you shave? And if you're a guy, are you fed up with trying to look professional at work when your face is covered with a 5 o'clock shadow...even at 9 o'clock in the morning?

Of course girls would argue that it's much worse for them. Women these days are under immense pressure to look good. **And body hair is definitely not 'in'!**

Don't you hate it? Imagine this... You've had a busy week rushing around after everyone else, and then someone suggests a game of volleyball. And guess what? You've been that busy you've forgotten to shave under your arms! Or you have to come up with some lame excuse to not go swimming because you'd die of embarrassment if anyone saw the shaving rash around your bikini line? (*Which you have to scratch discretely or not at all—even if the itch is driving you insane!*)

If you have ever felt this way, then relax... you're not alone. We all get busy, and sometimes looking after ourselves takes a back seat in our priorities. But shortly, you'll run out of excuses. I'm going to reveal to you how you can get pampered like royalty without taking much time out of your busy schedule. But more than that, I'll introduce you to a cost effective, painless way to get rid of your unwanted hair. *More on this later...*

Now maybe you've tried a million hair removal methods over the years. But the trouble is they're always too painful, take too much time, cause infections or redness, drain your budget, look ugly when the hair's growing back, or they just don't last long enough.

So what's the answer? How can you get rid of unwanted hair quickly, painlessly, and without breaking the budget either?

Well let's have a look at some of your options...

- **Plucking**

OUCH! Admit it—this isn't the most pleasant of procedures. In fact, it's *excruciatingly* painful! (*Think eye-watering nose pluck!*) It's also time-consuming, short-term and limited to small areas.

- **Shaving**

Not usually painful. Nicks can be painful though, and bleeding is nasty (*and time-consuming if you're a 'bleeder'*). Rashes and local infections can often be a problem later. Itching is awkward and very annoying. And when these problems clear up it's nearly time to shave again, so you only get a couple of good days. The prickly regrowth is not a winner either. And the hair grows back thicker and darker.

- **Waxing**

OUCH! If you reckon this is not painful then you'd better tell the rest of us your secret! It can be a killer. It *traumatizes* your skin and leaves it red and painful. There's no way you can put on make-up after waxing and going out in public is definitely a no-no. Plus, it actually *stimulates* regrowth!

- **Chemical Methods**

Chemicals can be painless, but the effects are only temporary. There may be redness and sensitivity. (*Plus, you've got to wonder about the long-term effects of those toxic chemicals getting absorbed into your body.*)

- **Electrolysis**

Here's how it works. A tiny metal probe is inserted into each individual hair follicle. Electricity runs through the probe and damages the area that generates the hair. This works well...*if the technician is highly skilled, and concentrating, and can get the probe exactly in the hair follicle.* If not, be prepared for discomfort, infection, skin damage, regrowth...! And it takes so long to complete! (*Think one hair at a time and you'll realise just how long this procedure takes!*)

- **Lasers**

Lasers pass light at a certain wavelength from a handpiece into the skin. This is selectively absorbed by the hair follicles, which then heat up and are destroyed. This makes it very hard or impossible for hair to regrow.

WARNING... Not All Laser Treatments Are The Same!

The trouble with most lasers is that the system relies on heat and it becomes very uncomfortable on the surrounding skin tissue. Various methods have been tried to reduce the pain, such as gels and ice packs. Unfortunately this can be messy and awkward, and time consuming.

And if not delivered precisely, the treatment may not be as effective as you'd hope.

So what's the answer?

At Last! A Pain-Free Alternative

If you're like most of my clients you have many concerns when it comes to removing unwanted hair. These may include...

- 1. You've got body hair you don't want.**

2. You've tried various alternatives and you aren't entirely happy with any of them.
- 3. You're fed up with spending your life removing hair over and over again.**
4. You want a job that gets you off the hair removal merry-go-round.
- 5. You don't want the process to hurt.**
6. You don't want to spend hours and hours on it.
- 7. You don't want to pay a fortune.**
8. You don't want your skin damaged or any unpleasant after effects.
- 9. You want to get on with your social life as soon as possible after the treatment.**
10. And you want the job done by someone you feel safe with and you trust.

Right?

Well now you can relax and put your concerns to rest. You see...

Here's The Quickest & Easiest Way To Permanently Reduced Unwanted Hair... 100% Guaranteed!

My name is Birgit Hall, the Manager of Innovative Body & Skin Rejuvenating Solutions. And if you're looking for a painless, quick and cost effective way to permanently reduce unwanted hair, then I urge you to give us a call.

You see, my staff and I are experts in the hair removal field, and we are totally dedicated to helping people like you solve your problem of unwanted body hair.

Personalised, Individual Service ...100% Guaranteed!

We understand your hair concerns inside out. We know you don't want the process to be painful, that your skin may have special needs, you want the process to be effective over the long-term, and you don't want to mortgage your house to have to pay for it.

I assure you—we know how to meet all your needs. We get great pleasure from seeing customer after customer go from being worried and uncertain when they first arrive, to happy and hair free after treatments. **I would love you to be one of them.**

The Most-Up-To-Date Laser Technology In Adelaide!

You'll soon discover at Innovative Body & Skin Rejuvenating Solutions we are committed to providing the best possible service for our customers. I've thoroughly tested all the different types of lasers available in the current market. And every two years or so we upgrade our equipment, so our customers always get the most state-of-the-art, safe, fast and ideal Laser Hair Removal system.

8 Good Reasons That Makes Our Laser System The Best In Adelaide!

- 1) **Our state-of-the-art laser produces the greatest hair reduction** result of all the lasers tested.
- 2) **Our laser is FDA accredited** (USA) for permanent hair reduction—and the FDA doesn't hand out this endorsement without good reason.
- 3) **Precision.** Our laser delivers its light beam only to the depth of the hair follicle, making it more precise and effective.

- 4) **Computerised delivery.** You don't have to worry about your technician's level of experience (*even though our staff are fully trained professionals*). This of course means the process is more precise and so the treatment is more effective.
- 5) **Treatment area is 5 times larger.** The hand piece is able to treat an area 5 times the size of most other lasers. This makes it much faster, and means it can **handle large areas** of hair much more easily than other systems. (Good news for your back, men!)
- 6) **Painless.** This is the most **painless** laser system available! Your skin is protected during treatment by the unique, patented **Dynamic Cooling Device** where cryogen is sprayed onto the skin to *cool* the upper layers. This was an important priority for us for the sake of our customers. The only sensation you feel is a slight *coolness* as the laser gently *soothes* your skin.
- 7) **Smoother, softer skin your friends will envy.** This technique not only protects your skin during treatment, but it actually gives you **smoother and softer skin**. There is no other treatment that does this! You'll delight in the sleek appearance of your skin ... the sensuous feel of your skin that radiates vitality.
- 8) **One of a kind.** This is the only hair removal clinic in Adelaide that has this advanced laser system. You just can't get this kind of treatment anywhere else in Adelaide!

Our Clinic has the most PAINLESS laser hair removal system in Adelaide, and it actually IMPROVES YOUR SKIN as well.

This advanced system *cools* and *protects* your skin as it delivers the laser beam. This not only keeps it safe from the heat of the laser, but also has the positive side-effect of *cleansing* and *regenerating* your skin tissue. This means that afterwards **your skin will actually be smoother to look at and to touch**. You will be able to put makeup on straight away after treatment in most cases. In fact within 10 minutes to a couple of hours most of our customers show no remaining signs of the treatment.

No Delays... You'll Be In & Out In No Time

Because our system is so accurate, automated, and can cover a much larger area at once, it is far quicker than any other laser around. **In fact the hair removal process at our Portrush Rd Clinic is actually 40% faster than our previous system**—which was already the fastest in Adelaide!

This is great news for you, because let's face it, you already spend enough time on hair removal—and now it's time to cure the problem once and for all.

Let me show you some typical times:

<i>Lip:</i> 20 seconds	<i>Underarm:</i> 5 minutes
<i>Back:</i> 20–40 minutes	<i>Bikini:</i> 5 minutes

Not Only Are We The Quickest Laser Treatment In Adelaide. We're Also ...The Cheapest!

You're probably thinking I've gone overboard now, right? (*But please, call our competitors. I know you won't be disappointed with our prices!*) Not only have we gone to the trouble to buy the very best and most painless system, AND we save you heaps of your precious time...

...but then we go and charge you less than everyone else!

Why Our Competitors Simply Can't Match Our Prices!

They haven't got a hope of matching our prices. Why? Well our competitors just can't match our speed and so they can't match our prices either! You see our system is *so fast* we don't take as

long, so it doesn't cost us as much. And we like to pass these cost savings on to you. We know that happy customers mean good business—and we want to be the BEST business. **We've got the most effective laser hair removal system in Adelaide, the most painless, the fastest, and the most affordable. And if it sounds like I'm passionate about my business and the level of service we offer, well you're right! *I am passionate* about providing *top quality results* to my clients. But don't take my word for it...

Here's what a few of our satisfied customers have to say about us...

"I have been a client of Laser Hair Removal at Body and Skin Rejuvenating Solutions for over 12 months now and I cannot believe that I waited so long to have this done.

It is a gem of an idea and I recommend everyone having it done! I had waxed my legs and bikini line for 10 years and suffered from terrible in-grown hairs. After only 1 treatment of laser hair removal those areas were 100% better. I have had 3 treatments on my bikini line and no longer have hair growing where I don't want it and my skin is baby smooth! I also suffered with shaving rash under my arms. After 3 treatments under my arms I am now completely hair free and the skin is never irritated or sore anymore.

I have recommended many of my friends to LHR and they all come back to me raving about how fantastic the treatment is. It doesn't hurt, it doesn't take long and it's a small price to pay for smooth, hair free skin!"

—*Sasha*

"I have found LHR at Innovative Body and Skin Rejuvenating Solutions to be an efficient and professional service. The staff are friendly and make you feel comfortable when dealing with what can be an embarrassing problem.

The treatment is fast with little discomfort and covers large areas such as my back and shoulders in one session. Hair regrowth is very slow and the hair is becoming progressively finer which gives a natural look. It offers advantages over other hair removal methods. Regrowth is comfortable unlike waxing which is itchy and produces ingrown hairs. It offers progressive results in large areas—areas that are too large to use electrolysis.

LHR is by far the best method for unwanted hair control—and over the years I have tried them all."

—*Barry*

"My main hair issue was my facial hair. I always looked like I had a 5 o'clock shadow. My facial hair was very dense & coarse & I suffered with sensitive skin, so my neck would develop ingrown hairs, bleeding & shaving rash. Since having laser hair removal treatments I no longer have these concerns. My wife loves it too, because she no longer has to wake up to a bristle kiss. It only took 10 mins to laser the face area. It has been a great investment. Thank you Laser Hair Removal at 186 Glynburn Rd Medical Centre, Tranmere."

TWO EYEBROWS AT LAST!

HAPPY CHIN AND BACK CUSTOMERS:

So let's recap. Here's 10 compelling reasons for using Laser Hair Removal

1. PERMANENT REDUCTION

We use the latest generation laser hair removal equipment (the only one in Adelaide). The FDA in America has formally approved this model for permanent hair reduction—a claim they won't endorse lightly. Patients from the original studies were **still hair-free after 7 years**—no other system can match this.

2. PAINLESS PROCEDURE

Our laser equipment has advanced features that include a unique and patented cooling system that protects the skin. No unpleasant gels or ice packs are required. This system actually *cools* and *soothes* your skin while removing hair. If you have tried other lasers you will be amazed by this one ... ours is unmatched in Adelaide.

3. BETTER SKIN

This system actually improves your skin! Unlike other processes that can cause either temporary or permanent irritation or damage, this one *cleanses* and *regenerates* the skin. It not only leaves no evidence of hair removal, but makes your skin look and feel smoother. You can actually see the difference! Feel the smooth sleekness... the sensuous glow of your skin. Plus in most cases you can put makeup on straight away, and have no signs within 10 minutes after treatment.

4. FASTER PROCESS

The revolutionary technology we use is 40% faster than our previous system—**which was already the fastest in Adelaide!**

5. CHEAPER COST

Because the system is so quick, we pass that on as savings to you. So you not only spend less of your time on hair removal, but less of your dollars as well.

6. MEN WELCOME

Half of our clients are men—so our professional staff are very experienced with the challenges of the male body (*and of course, women also*). They know how to remove even large areas of hair with excellent results. The special laser head can remove up to 5 times the area of other systems in one go...perfect for large area such as backs.

7. VERY CONVENIENT

We recognise that many people work 9 to 5 and need to be able to come outside of those hours. Therefore we are open right up till 9 pm on week days, and 9 till 5 on Saturdays. What's more, we are centrally located, right in the heart of Magill, Norwood, Payneham areas. On the corner of Bakewell Rd and Portrush Rd. We also offer plentiful and more discreet parking at the rear of the building.

8. REFERRAL DISCOUNTS

Happy customers are the best way to spread the word about the Clinic and what we have to offer. So any time a friend you introduce has a treatment, we will give you 10% off your next visit as a 'thank you'. (*Make sure you ask us all about it!*)

9. FREE INITIAL CONSULTATION (VALUED AT \$65.00)

As part of our commitment to happy, satisfied customers, we are offering a **FREE Initial Consultation**. This way you can find out what is involved, what we can do for you, what it will cost, what to expect... they'll be no surprises. And no pressure either! Just the facts and a chance for you to check us out and make an informed decision.

10. MONEY-BACK GUARANTEE

Happy, satisfied customers are our priority. The way we look at it, is this...

“If for any reason you are not happy, if you’re not absolutely satisfied and thrilled with your treatment in the next 14 days, we’ll fix the problem. It’s that simple. We’ll either redo the treatment to your satisfaction, or we’ll refund your money. If you’re not happy, we don’t deserve your money, and I insist you asked for a refund. You must be completely satisfied or you pay nothing. Now I can’t be any fairer than that can I?”
